Dear Sir,

Re: Unauthorised Modification of Gas Cylinders

Thank you for bringing to our attention the cases of individuals modifying gas cylinders manufactured by Luxfer Gas Cylinders Ltd. such that they can be fitted to air rifles etc. and then filled via an adaptor inserted into the base rather than through the neck as originally designed.

Such unauthorised modifications to cylinders clearly take them outside the scope of their original design approval and as such may make them unsafe to use and fill.

Luxfer does not support such practices and cannot be held responsible for any damage or injury resulting from these actions.

Yours Faithfully,
Luxfer Gas Cylinders Ltd.
